Diving Emergency Action Plan

A written Emergency Action Plan (EAP) is an important component in mitigating an emergency. In an effort to make certain that a public safety dive team is prepared Dive Rescue International requires all trainers to complete the following form and keep a printed copy in their instructor / trainer manual. A completed EAP form needs to be on file at the Dive Rescue International office prior to instructor / trainer certification and recertification. These forms should be updated as needed and resubmitted to Dive Rescue International at a minimum of every three years during the recertification process.

After filling in the necessary blanks on the previous page, complete the information on this page:

Date _____

Instructor Name _____

Name of Agency _____

Address _____

City _____ State _____ Zip _____

Work Phone Number _____ Ext. _____

Alternate Phone Number _____ Type _____

Work Email _____

Home Email _____

Remember to keep a printed copy in your trainer manual and on your apparatus. Should an accident happen, all members of your team should be familiar with this plan. NIOSH investigators may likely ask to see a copy of your written Emergency Action Plan. You may also consider adding the Emergency Action Plan to your **SOPs/SOGs**.

Additional copies of this form are available online at DiveRescueIntl.com

Please note: The *Email to Dive Rescue International* button works with email applications such as Microsoft Outlook Express, Microsoft Outlook, Eudora or Mail. If you currently use an Internet email service such as Yahoo or Hotmail, you will need to save the form and return it manually to swatson@diverescueintl.com using your Internet email service.
